Professional Profile

Third-year BSc (Hons) in Information Technology undergraduate at SLIIT with hands-on experience in Full-Stack Web Development, Software Engineering, Software Quality Assurance, and UI/UX Design. Skilled in React, Node.js, Spring Boot, Java, JavaScript, HTML, CSS, and MySQL, with experience in manual and automated testing using Playwright, Cypress, Postman, and Excel. A detail-oriented problem-solver passionate about developing reliable, user-friendly, and high-quality software solutions.

Technical Skills

- **Programming Languages:** Java, JavaScript, Kotlin, SQL, Python, C++, C
- **Web Development:** HTML5, CSS3, React.js, Node.js, Express.js, Spring Boot, PHP
- **Databases & DevOps:** MySQL, MongoDB, Docker, Jenkins, Git/GitHub
- **Software Testing (QA):** Playwright, Jira, Cypress, Postman, Functional & API Testing, SDLC/STLC, Agile
- **Data Analytics:** Power BI, Power Query, Excel, Data Visualization & KPI Reporting
- **UI / UX & Tools:** Figma, ClickUp, Android Studio, IntelliJ IDEA, VS Code
- **Soft Skills:** Analytical Thinking, Problem Solving, Collaborative Teamwork, Attention to Detail

Education

Sri Lanka Institute of Information Technology (SLIIT) **2023 – Present**
Bachelor of Information Technology (BSc Hons) – Information Technology Specialization *Undergraduate (Year 3)*

Visakha Vidyalaya Colombo 04
G.C.E. Advanced Level (Physical Science Stream) **2022 (2023)**
Passed on First Attempt *Combined Mathematics: S, Chemistry: S, Physics: S, General English: B*

Visakha Vidyalaya Colombo 04
G.C.E. Ordinary Level **2019**
Passed on First Attempt with 6A, 3B

Professional Certifications

Higher National Diploma (HND) in Information Technology **2023 – 2025**
Sri Lanka Institute of Information Technology (SLIIT)

International Diploma in Information And Communication Technology (Level 3-OTHM) **2023 – 2024**
International College of Business and Technology (ICBT)

Certificate in English Language **2023**
National Institute Of Business Management (NIBM)

Academic & Development Projects

UniFound – Lost and Found Management System **Year 3 | Semester 1 | ITPM**
Technologies: MongoDB, Express.js, React.js, Node.js (MERN), Docker

- Developed the System Intelligence and Administration module, including the Admin Dashboard, User Management, Master Data Management, system usage analytics, and data export features.
- Built and integrated MERN-based frontend and backend components in a Docker-enabled development environment.

Smart Campus Management System <i>Technologies: Spring Boot, React.js, MongoDB Atlas, Docker, Maven</i> - Developed the Facility & Resource Management module with robust CRUD operations using Spring Boot and React.js. - Implemented resource search and filtering, detailed resource views, and administrative management interfaces.	Year 3 Semester 1 PAF
Automated Testing for Singlish to Sinhala Transliteration System <i>Technologies: Python, Playwright, OpenPyXL, Microsoft Excel</i> - Developed an automated UI testing framework using Playwright and Python featuring Excel-based data-driven testing. - Executed automated test cases, successfully identified defects, and generated complete quality analysis reports.	Year 3 Semester 1 ITPM
EcoCycle – Plastic Bottle Recycling Management System <i>Technologies: MongoDB, Express.js, React.js, Node.js (MERN)</i> - Developed the Transport Management module to streamline bottle collection and transportation operations. - Implemented transport request creation, staff allocation, pickup scheduling, and real-time delivery status tracking.	Year 2 Semester 2 ITP
Eventura – Online Event Planning System <i>Technologies: Java, MySQL, Bootstrap</i> - Developed the User Module, enabling seamless event browsing and booking through an intuitive, interactive interface. - Implemented reliable event booking backend logic integrated with custom MySQL database connectivity.	Year 2 Semester 1 OOP
MedCore – Online Doctor Appointment Booking System <i>Technologies: PHP, MySQL, HTML, CSS, JavaScript</i> - Developed the User Management module (user registration, authentication, profile management, and account actions). - Implemented a responsive Notification module to deliver real-time appointment updates and system alerts.	Year 1 Semester 2 IWT

UI/UX & Mobile Development Projects

WellnessMate – Wellness Tracking Application <i>Technologies: Kotlin, Android Studio, Material Design 3, SharedPreferences, AlarmManager</i> - Built an Android application for habit tracking, mood monitoring, hydration reminders, and personalized health metrics. - Programmed secure authentication, push notification reminders, home screen widgets, and persistent local storage.	Year 2 Semester 2 MAD
BookNest – Digital Reading Companion <i>Technologies: Kotlin, Android Studio, Gradle</i> - Developed an Android app for e-book discovery, active reading progress tracking, and personalized goal-setting. - Implemented secure login, interactive statistics graphs, profile management, and a clean Material Design layout.	Year 2 Semester 2 MAD
Café Brew – Coffee Shop UI/UX Design <i>Technologies: Figma</i> - Designed high-fidelity interactive prototypes and reusable component libraries for a modern retail coffee app. - Designed mobile layouts for onboarding, browsing, shopping cart, secure checkout, and order status tracking.	Year 2 Semester 2 MAD
